Domestic and Overseas Customer Businesses

1 Leasing and Finance Business

We support customers' capital investments by offering finance leases and operating leases for various things such as factory machine tools, heat-source facilities, and store equipment. We also provide asset management and other related services to assist customers with their administrative procedure outsourcing and other needs.

2 Rental Business

We meet a diverse range of rental needs, including those for IT equipment, machine tools, testing devices, and measurement equipment.

3 Used Equipment Trading Business

Utilizing the expertise in products acquired through our long experience in the leasing business, we trade in high-quality used machine tools, medical equipment, and IT equipment through Group companies that are highly specialized in this sector.

4 Auto Lease and Auto Finance Business

In addition to financing and maintenance services, we offer optimal vehicle management services that lighten the burden of vehicle management procedures, reduce costs, and increase safety while supporting the enhancement of vehicle eco-initiatives.

5 Equipment and Service Business

We offer asset management, sales support, and other financial services to meet diverse customer needs.

6 Healthcare Business

We provide financial support for hospitals and other medical institutions for starting up operations, expanding or renovating facilities, or purchasing high-tech equipment. We also offer total solutions in this field that include the renovation of hospitals and the operation of long-term care facilities by a Group company.

7 Environment and Energy Business

We supply energy solutions for realizing facility energy savings as well as services related to carbon offset and other emissions credits. In addition, in the solar power field, we lease solar panels and participate in power generation businesses, while a Group company is engaged in the acquisition and trading of solar power generation projects.

8 Real Estate Business

Our wide range of real estate businesses includes real estate leasing for properties such as commercial facilities, hotels, logistics facilities, and other buildings; nonrecourse financing, which is linked to a property's earnings capacity; and real estate revitalization investment, which targets aged buildings.

9 Aviation and Logistics Business

We are working to strengthen our global asset business, which deals in assets with high marketability and market value, such as aircraft, aircraft engines, marine vessels, containers, and railcars and freight cars.

10 Infrastructure and Investment Business

We develop social infrastructure business in Japan and overseas. The Company has one of the most extensive track records in Japan in private finance initiative (PFI) projects, which involve utilizing private-sector funding expertise to construct public facilities and operate public infrastructure.
